Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination.
- “Use” applies only to activities within my [office, clinic, practice group, etc.] such as sharing, employing, applying, utilizing, examining, and analyzing information that identifies you.
- “Disclosure” applies to activities outside of my [office, clinic, practice group, etc.], such as releasing, transferring, or providing access to information about you to other parties.
